to best address this sector

Se¹/₂ not heavily people oriented. - People are present in
sufficient numbers to operate, but purpose is not directly
related to people-support. People are here for the sake
of the site, rather than vice-versa. Sense of standards
& waiting, preparation, protocol, ~~discipline~~, alertness,
things don't happen here until directed by "higher-ups" who
are in charge & responsible. People here are "Indians." Sense
of non-U.S.

54 1/2 Inside structure from forward large open bay filled w/ various shapes, dimensions & types of machines, equipment & paraphernalia. But several of one kind of object that seems large smooth, rounded & pointed. Objects are lighter colored than rest & impression of motor vehicle inside like a truck & tractor. Feeling there's four objects - but maybe six.
